

from our family to yours

For over 30 years now we have kept a simple philosophy: produce the finest quality products using the finest quality ingredients. We shy away from using any artificial flavorings, artificial colorings, preservatives and shortening. Instead, we pride ourselves in using real butter, fresh eggs, 100% pure vanilla extract, true whipped cream. We bake all of our cakes fresh from scratch and never frozen — making our products as natural and high-quality as we possibly can for you and your family.
